**Attachments:** Draft EPA ADEQ MOA 7.15.19 - version 4\_kh.docx

I made a few comments on others comments. For some reason it does not look like all my other comments were captured, but others caught them. I skimmed the comments as I'm crunching on something else. But I think we have a lot to discuss with AZ - especially getting context and intent in many sections. I will not be available for tomorrow's internal EPA call as I'll be traveling to AZ. But hopefully I can catch dinner with folks. - Kathy

And I added my comments to V.3, and uploaded them as Version 4 (also attached here). There are some larger issues to discuss before posing them in the comments to ADEQ.

**Subject:** Please review Version 3 on Sharepoint - EPA/AZ MOA.

On Sharepoint, I added Version 3 of the draft AZ/EPA MOA. Since we are short on time before submitting comments to AZ on Tuesday, I created a version with the comments I believe we could share with ADEQ at this time.

Could you please review this version by COB Monday and make any necessary changes. I will then copy it and send it via email to ADEQ on Tuesday before we fly out to AZ. This is my first time using Sharepoint ....at times I left comments in or I condensed the comments and created a new one. I am sure it will get easier and more efficient as we continue to work on the document. If there is a better way to condense our comments for presentation to AZ, please let me know. Thanks!
